Profile

Computer Science undergraduate focused on **Java backend development** and **LLM-based applications**, with hands-on experience in **Spring Boot, Spring AI, REST APIs, MySQL, Redis, and RAG**. Strong foundation in **DSA, OOP, DBMS, and backend system design**, with experience building **AI-integrated backend services**.

Experience

1M1B (One Million for One Billion)

July 2026 – September 2026

AI for Sustainability Virtual Intern

Virtual

- Engineered a **Water Conservation AI Bot** using **Spring Boot, Angular, and Google Gemini API** to deliver personalized water-saving recommendations through **REST APIs**.
- Integrated **Retrieval-Augmented Generation (RAG)** and **Agentic AI** concepts with **LLM** integration to generate context-aware responses from sustainability-related information.

Projects

IdemGuard | Java, Spring Boot, MySQL, Redis, REST API

Sep. 2026

- Engineered a backend system for **idempotent payment processing**, preventing duplicate transactions when identical requests are submitted multiple times.
- Implemented **idempotency keys, request hashing, and Redis-based request verification** with MySQL persistence, and tested concurrent duplicate requests using multiple Postman clients.

Custom Load Balancer | Java, Spring Boot, REST API, Maven

April 2026

- Engineered an application-level load balancer using **Java and Spring Boot** with thread-safe round-robin routing across multiple backend server instances.
- Implemented **health checks, timeouts, automatic failover, and a circuit breaker** with CLOSED, OPEN, and HALF-OPEN states for backend failure handling.

Real-time Chat Application | Java, WebSocket

Jan. 2025

- Engineered a real-time messaging application using **Java and WebSocket** for persistent, low-latency client-server communication.
- Implemented **concurrent connection management** and message broadcasting using a structured client-server architecture.

Technical Skills

Languages: Java

Frontend: HTML, CSS, Angular

Backend: Spring Boot, Spring Security, Spring Data JPA, Hibernate, REST APIs, Microservices

AI / GenAI: Spring AI, LLM APIs (OpenAI, Google Gemini), RAG, Embeddings, Vector Databases, Agentic AI

Cloud: AWS

Databases: MySQL, Redis

Tools: Git, GitHub, IntelliJ IDEA, VS Code, Postman, Maven, Docker

Core CS: Data Structures & Algorithms, OOP, DBMS, Multithreading

Education

I.E.C College of Engineering and Technology

Greater Noida, Uttar Pradesh

B.Tech in Computer Science and Engineering, CGPA: 7.89

Aug. 2023 – June 2027

Jananayak Chandrashekhar University

Ballia, Uttar Pradesh

Bachelor of Arts

2022

Gyan Peethika Senior Secondary School

Ballia, Uttar Pradesh

Intermediate (CBSE)

2019

Achievements & Certifications

- Solved **250+ Data Structures and Algorithms** problems on **LeetCode**, strengthening algorithmic problem-solving skills.
- Spring Boot Certification – Udemy**
- 5-Day AI Agents Intensive Course with Google – Kaggle**
- PM Internship Quiz**, Ministry of Corporate Affairs and MyGov.
- AINCAT 2026**, All India Naukri Campus Aptitude Test.
